## SUMMARY:

Enthusiastic full stack web developer currently advancing skills through The Ohio State University bootcamp. Dedicated to bringing ideas to life by integrating robust backend solutions with intuitive frontend experiences. Recognized for creativity, collaborative spirit, and proficiency in guiding projects from conception to completion. Excels in teamwork and thrives on the journey of transforming visions into functional applications.

---

## TECHNICAL SKILLS:

### Database management:

Skilled in SQL database management, with experience in database design, query optimization, and data manipulation. Capable of ensuring data integrity and implementing security measures for robust and efficient database operations.

### Node.js:

Skilled in Node.js for building efficient server-side applications and APIs using Express.js. Proficient in asynchronous programming, npm package management, and integrating databases like SQL. Experienced in deploying and maintaining high-performance Node.js applications.

### RESTful APIs:

Skilled in designing, developing, and consuming RESTful APIs. Proficient in implementing RESTful principles for scalable and secure communication between client and server. Experienced in authentication, validation, and optimization techniques. Familiar with API documentation and testing tools.

### Front-end Development:

Skilled in HTML5, CSS, and JavaScript, adept at crafting visually appealing and user-friendly web interfaces. Experienced in JavaScript for creating dynamic and interactive web

elements, with a focus on modern frameworks like Handlebars. Knowledgeable in responsive design principles and cross-browser compatibility, ensuring seamless performance across various devices and platforms.

### **Front-end frameworks:**

Proficient with front-end frameworks with a strong knowledge of Handlebars. Proficient in leveraging Handlebars to create dynamic and efficient web pages, streamlining the rendering of data from backend systems.

## **WORK EXPERIENCE:**

### **Citrin**

Valet, Columbus, Ohio - February 2024 - Present

- Adapted to various challenges and changing situations in a fast-paced restaurant setting, showcasing flexibility and resilience.
- Collaborate with team members to handle high-volume periods effectively, prioritize tasks, and resolve any customer concerns or inquiries promptly to ensure a positive experience.
- Successfully managed the efficient handling and parking of over 50 cars per night in collaboration with a team member, ensuring smooth operations and timely service.

### **Foundation Millwork & Stone**

Stone Fabricator & Installer, Columbus, Ohio - June 2022 - November 2023

- Successfully completed fabrication and installation of stone surfaces for high-profile clients and prestigious locations, meeting demanding specifications and design requirements with a small team.
  - Managed and led installation teams to deliver flawless installations of stone products in residential and commercial settings, ensuring customer satisfaction.
  - Safely and efficiently collaborate with team members to transport and maneuver large and heavy stone pieces, ensuring proper handling techniques and teamwork to minimize the risk of injury and damage to the materials.
  - Collaborate effectively with clients, and contractors to understand project requirements, coordinate scheduling, and ensure smooth execution of installations, prioritizing clear communication and customer satisfaction throughout the process.
-

## EDUCATION:

**Certificate, Full Stack Web Development** - November 2023 - May 2024  
The Ohio State University - Bootcamp
